

NAPLAN on paper – information for parents and carers

Why do students do NAPLAN tests?

The National Assessment Program – Literacy and Numeracy (NAPLAN) assesses literacy and numeracy skills that are essential for every child to progress through school and life.

Students in Years 3, 5, 7 and 9 participate in the annual NAPLAN tests in reading, writing, language conventions (spelling, grammar and punctuation) and numeracy.

The tests provide parents and schools with an understanding of how individual students are performing at the time of the tests. NAPLAN tests are just one aspect of a school's assessment and reporting process; they do not replace ongoing assessments made by teachers about student performance.

NAPLAN tests also provide schools, education authorities and governments with information about how education programs are working and whether young Australians are meeting important educational outcomes in literacy and numeracy.

What will be tested?

NAPLAN assesses literacy and numeracy skills that students are learning through their regular school curriculum. All government and non-government education authorities have contributed to the development of NAPLAN materials.

To give you an idea of what the tests look like, see example questions at nap.edu.au/naplanexample

How can I help my child prepare for NAPLAN?

Help your child prepare for NAPLAN by reassuring them that the tests are just one part of their school program, and by reminding them on the day to simply try their best. Teachers will ensure students are familiar with the types of questions in the tests and will provide appropriate support and guidance.

ACARA does not recommend the use of services by coaching providers or excessive preparation. NAPLAN is not about passing or failing, but about assessing learning progress.

Participation in NAPLAN

All students in Years 3, 5, 7 and 9 are expected to participate in the annual NAPLAN tests.

Students with disability may qualify for adjustments that reflect the support normally provided for classroom assessments. Where applicable you should first discuss the use of any disability adjustments for your child with your child's teacher. A formal exemption may be granted for a student with significant intellectual disability and/or significant coexisting conditions, or for a student who has recently arrived in Australia and has a non-English speaking background.

Your school principal and your local test administration authority can give you more information on disability adjustments or the process required to gain a formal exemption.

Will my child sit NAPLAN on paper or online?

Your child will sit the NAPLAN paper tests in 2018.

However, children in some other schools across Australia may sit the NAPLAN online tests this year. Federal, state and territory education ministers have agreed that NAPLAN will move online over the next two to three years. State and territory education authorities will determine when their schools move online.

As students are presented with questions that test the same range of difficulty, regardless of whether they complete the test online or on paper, results for both formats will be reported on the same NAPLAN assessment scale.

To find out more about NAPLAN Online, visit nap.edu.au/online-assessment

What if my child is absent from school on test days?

Where possible, schools may arrange for individual students who are absent at the time of testing to complete missed tests at another time during the testing week. Individual students are not permitted to sit tests after Friday 18 May 2018.

NAPLAN 2018 tests timetable

	Tuesday 15 May	Wednesday 16 May	Thursday 17 May
Year 3	language conventions 40 minutes writing 40 minutes	reading 45 minutes	numeracy 45 minutes
Year 5	language conventions 40 minutes writing 40 minutes	reading 50 minutes	numeracy 50 minutes
Year 7	language conventions 45 minutes writing 40 minutes	reading 65 minutes	numeracy 60 minutes
Year 9	language conventions 45 minutes writing 40 minutes	reading 65 minutes	numeracy 60 minutes

How are NAPLAN test results used?

- Students and parents may use individual results to discuss progress with teachers.
- Teachers use results to help them better identify students who require greater challenges or additional support.
- Schools use results to identify strengths and weaknesses in teaching programs and to set goals in literacy and numeracy.
- School systems use results to review programs and support offered to schools.
- The community can see average school NAPLAN results at myschool.edu.au

Where can I get more information?

For more information about NAPLAN:

- contact your child's school
- contact your local test administration authority at nap.edu.au/TAA
- visit nap.edu.au

For information about how personal information for NAPLAN will be handled by ACARA, please visit nap.edu.au/naplanprivacy

How is my child's performance measured?

Individual student performance is shown on a national achievement scale for each test. A result at the national minimum standard indicates that the student has demonstrated the basic literacy and numeracy skills needed to participate fully in that year level. The performance of individual students can be compared to the average performance of all students in Australia.

A NAPLAN report will be issued by your school later in the year. If you do not receive a report, you should contact your school.
