Georgia Morgan

After saying a sad goodbye to our previous coordinator Alex, I am excited to introduce myself as Toorak's new coordinator,

Georgia! I am originally a primary school teacher from London and have worked with OSH since last year. I have recently moved down with the company from services in Sydney and a close by service in Melbourne. I am super excited to take over from Alex and can't wait to continue all her hard efforts. I am looking forward to working with both you and your children and if you have any suggestions or things you would like to see happen at OSH, please feel free to let me know! Thank you!

Nathan Stone

Another exciting welcome to Nathan Stone, our new assistant coordinator. Nathan comes from a long day care background and is very much looking forward to starting a new role within OSHclub. We are still very lucky to still have our current assistant, Amy, staying with us too and can't wait for the additional adults to help continue improving our service.

Science Club

Last week the children had loads of fun with our educator Steve making some super cool 'kinetic sand'. In small groups the children were able to mix together the ingredients until they were happy with the consistency. Some children found they had put lots of wet ingredients in so had to work a lot harder to make the sand 'stick together'. After, they were able to choose different food colouring and glitter to make their kinetic sand even prettier! All children were lucky to take their inventions home that day.

Last week some of Tooraks talented chefs worked very hard together to create wonderful pretzels! The children first learnt about where pretzels originated from! Pretzels are thought to have been originally created in Italy by a monk who made the pretzels with a cross in the middle to resemble a child praying. It is said that the monk would give the pretzels to children who had memorized their prayers! After learning about the history, the children got stuck in learning fantastic, new skills such as kneading and shaping. They loved it!

Vacation Care

Our April Vacation Care programme is just around the corner! Running from Monday 8th April – Thursday 18th April (07:00-18:15), we have two weeks of exciting days planned for your children. There are different themes each day including 2 incursions; African drumming and a puppetry experience, as well as 2 excursions; Inflatable world and Bundoora park farm. The children have been a fantastic help this week as we have been brainstorming ideas for activities to do on each day! Bookings are now open for our vacation care programme and please come into service and pick up a paper copy to see what other fantastic themes we have.
